

# WHY SPONSOR The Boon Project?

The Boon Project is the only nonprofit in the Charleston area specifically supporting local young adults facing cancer between the ages of 18-40(ish), regardless of cancer type or stage. The Boon Project aims to support the unique needs of this underserved demographic and their families emotionally, physically, and financially. **All of our programs are year-round and always free for those we serve.**

## Courage Club

Our Courage Club features a free private online support group and no-cost monthly gatherings around Charleston for young adults who face cancer. This program aims to address the social isolation and loneliness that comes with being diagnosed in the prime of life. In 2023, these gatherings included a painting class, a charcuterie workshop, an evening of bowling, an afternoon at Topgolf, family gameday at the RiverDogs, and candle making at Charleston Candle Co., to name a few. Some of the events also include family members, spouses, children, and friends. **The Boon Project also offers Meta Meet-Up, a subgroup of Courage Club, for young adults with a Stage 4 or chronic cancer diagnosis.** This specific group meets quarterly in addition to the monthly Courage Club events.

## Fitness Force

Fitness Force is our no-cost program that helps local survivors of all ages meet and maintain fitness goals from diagnosis through survivorship years. The Fitness Force program provides a free monthly workout, nutrition session, or group fitness class. It also offers access to an online community of supporters and accountability partners. Survivor participants can also apply for our **Fitness Force Grants** to help eliminate financial barriers to their fitness goals, such as help with gym memberships, pieces of fitness equipment, and workout apparel.

## Patient Support

The Patient Support program includes Boon Bags, Financial Assistance Grants, access to our volunteer nurse Young Adult Cancer guide, and much more. **Boon Bags are our care packages distributed to oncology offices around Charleston for young adults who are newly diagnosed.** Our bags are also often requested locally by friends and family members of newly diagnosed patients. Boon Bags contain resources, tips on questions to ask, organizational tools, comfort items, and a list of our services.

**Our Financial Assistance Grants help ease the financial burden of a cancer diagnosis for young adults and their families.** Young adults with cancer are more likely to face financial toxicity, and some of these survivors will never catch back up to their peers monetarily. **Our Financial Assistance Grants offer immediate relief during initial diagnosis and treatment, and (when we have enough funding) our Survivorship Grant(s) help address the long-lasting effects of cancer during survivorship years.**

The Boon Project has met the continued financial needs of those we serve because of our generous community of supporters.

**Our support community includes personal giving, fundraising, and sponsorship!**
